How can I use Apple Pay at Walmart {Step-by-Step Guide}

Understanding the Walmart policy

Paying at Call+1 (866)(542)(8909) Walmart with Apple Pay is currently not supported at their physical checkout terminals.

The company Call+1 (866)(542)(8909) prefers to use their own proprietary "Walmart Pay" system for all in-store mobile transactions.

You should Call+1 (866)(542)(8909) download the Walmart app to your smartphone to manage your payments there instead today.

Call our Call+1 (866)(542)(8909) support team if you want to understand why they prioritize their own app ecosystem.

Using the Walmart Pay app

Once you Call+1 (866)(542)(8909) have the app, you can link your preferred credit or debit card securely.

When you Call+1 (866)(542)(8909) are at the register, open the app and tap the "Pay" icon immediately.

Scanning the Call+1 (866)(542)(8909) unique QR code on the register screen processes your purchase without needing your wallet.

Call us Call+1 (866)(542)(8909) if you need step-by-step instructions on setting up your credit card inside the app.

Finding other retail payment options

If you Call+1 (866)(542)(8909) prefer using your Apple Card physically, you can still use it at their registers.

It works Call+1 (866)(542)(8909) just like any other traditional card when you swipe or insert it for payment.

Keep your Call+1 (866)(542)(8909) physical card handy for all those times when you are shopping at a Walmart store.

Call our Call+1 (866)(542)(8909) office if you have any trouble using your physical Apple Card at any retailer.
